

# THE IRISXtract™ SOLUTIONS SUITE

ANY DOCUMENT, ANY WAY, ANYWHERE.

# WHAT DOES IRISXTRACT™ DO?

IRISXtract™ is an advanced suite of capture tools that scans and extracts key information from documents to connect and integrate with your back office in real time. By automating your manual processes, IRISXtract unleashes new heights of efficiency and enables faster, more informed decisions for better results across the board.

IRISXtract can benefit core business functions such as finance, legal, IT, and any highly manual or complex processing environment.

## WHAT'S DIFFERENT ABOUT IRIS?

IRISXtract employs exceptionally clever OCR/IDR recognition processes to capture multiple types of documents (e.g. TIFF, JPEG, PDF, PDF/A, email attachments etc.), convert them into your required format (e.g. HTML, Word, Open Office etc.) and connect them to back-end systems for further processing or storage.

IRISXtract also features patented iHQC™ technology which compresses documents up to 50 times their original size without compromising on image quality or content. This can save your business significant time and money in terms of storage, the ability to quickly share and collaborate, and manage bandwidth.

## STEPS TO EXTRACT DATA AND ADD VALUE

## IRISXtract WRAPS AROUND YOUR BUSINESS NEEDS

## 5 WAYS IRIS CAN HELP YOUR BUSINESS

### 1. OPTIMIZE YOUR BUSINESS PROCESSES

IRISXtract's solution optimizes all critical business processes, including mailroom digitization and accounts payable automation, via an all-in-one platform. It provides end-to-end processing for all types of documents, from capture to integration into your back-end systems such as ERP. Its advanced OCR tools include capability to process 137 languages and an unlimited number of documents.

### 2. AUTOMATE YOUR INCOMING MAIL

With IRISXtract, you can automate the processing of incoming mail from start to finish. All documents, whether received in hard copy or electronic format, will be automatically analyzed, sorted, and sent to the right people in your business.

To ensure you can access information you need, as needed, key data can be automatically extracted from incoming documents and listed in indices to populate your systems.

### 3. SAVE TIME AND MONEY WITH BETTER INVOICE PROCESSING

If your Accounts Payable team has to manually enter invoices into your accounting system, validate the information, and ensure each is approved and paid—your business has a huge opportunity to save time and money.

Our Invoice Processing solutions focus on process automation and data validation. You'll be able to manage cashflow with confidence, reduce compliance risk, enjoy more lucrative supplier relationships, and make potential time-savings equivalent to an extra three days\* every month!

### 4. COMPRESS AND CONVERT YOUR DOCUMENTS FOR RAPID USABILITY

Using IRISXtract patented iHQC technology, you can shrink files up to 50 times smaller while retaining quality, for high-speed file transfer, economical storage, and fast retrieval.

IRISXtract's advanced OCR tools let you create multiple file formats with indices for fast sharing and editing, short-term storage, and long-term archiving. These intelligent documents can then be stored in numerous back-end systems including Canon Solutions America's Therefore™ Document Management System, Microsoft SharePoint®, and Cloud storage systems such as Google docs,™ Dropbox, and box.com.

### 5. ENHANCE EFFICIENCY WITH OUR END-TO-END DOCUMENT MANAGEMENT SYSTEM

Research shows that in many businesses two to three hours a day can be wasted simply searching for the right documentation (RS Consulting 2011).

A Document Management Systems from Canon Solutions America will connect your people, processes, and information faster and more productively. We'll provide you with a complete document audit trail, highly customizable workflows, advanced indexing for swift document retrieval, and secure document viewing protocol.

## Want to see a major increase in the productivity of your business?

Canon Solutions America can enhance the performance of your business, your processes, and your people.

We focus on the electronic and paper document life cycles at the heart of your business to ensure your efficiency is maximized at every step. This includes everything from simplifying specific processes such as scan-to-folder at the touch of a button, through to complex process management solutions in HR, Accounts Payable, and Mailrooms.

Whatever your goals, whatever your size, talk to Canon Solutions America. We can make a difference.

## UTILIZE IRISXTRACT TO ITS FULL POTENTIAL WITH PROFESSIONAL SERVICES FROM CANON SOLUTIONS AMERICA
