

IRIS Powerscan™ 10

MULTI-CHANNEL CAPTURE MADE EASY!

IRIS Powerscan™ captures the data **from any incoming document** and integrates it automatically **to your business applications**.

Key features

- A single capture and classification platform for all your documents, coming from any source
- High accuracy indexing of key data thanks to IRIS' award-winning OCR
- User-friendly quality control and validation for fast integration of reliable data into your systems
- Creation of hyper-compressed PDF and PDF/A files thanks to IRIS' multi-patented compression technology
- Export to any destination (e.g. your applications, folders, the cloud, etc.) through a unique customizable and integrated connection platform

Key benefits

- Save money by integrating critical business information from your documents into your systems
- Speed up your capture processes thanks to selective processing on relevant pages only
- Enjoy the most intuitive, easy-to-use and customizable interface
- Free yourself of volume limitations – the ultimate capture client for any document processing system
- Control archiving costs and kick-start your cloud services thanks to lightweight files
- Start working in no time thanks to user-friendly wizards with advanced auto-learning features
- Deploy and operate quickly thanks to mass installation features, user management, task automation, etc.

SAVE

Save valuable time on document capture and consolidate valuable business data.

A COMPLETE SOLUTION, FROM DOCUMENT CAPTURE THROUGH TO BUSINESS APPLICATION DATA INTEGRATION

1. Multi-channel capture

IRIS Powerscan™ 10 supports most popular scanners (Canon®, Kodak, Fujitsu®, etc.), can import files manually or from an MFP via the powerful watched folders feature of IRIS Powerscan™ 10, and is able to scan directly from the cloud (Box, DropBox, OneDrive, SharePoint). Powerful image adjustment tools are available to improve the quality of images (deskew, rotation, despeckle, etc.)

2. Advanced classification

IRIS Powerscan™ 10 performs automatic classification of your various document types thanks to barcodes, patch codes, OCR/ICR zones, and more. The powerful IRIS Fingerprint™ layout recognition technology can even learn what your documents look like and identify their type without the need for any labels or barcodes.

3. High-accuracy indexing

IRIS Powerscan™ 10 Advanced indexing through a customizable interface: barcodes, patch codes, OCR, ICR, etc. Complete index files containing all relevant data and metadata can be created in XML or CSV format. The Data Source function allows for any index value to be retrieved and/or validated through an ODBC data source.

4. One-click validation

IRIS Powerscan™ 10 uses powerful verification technologies and identifies incorrect indexes. Users are then prompted and able to quickly proceed through index validation thanks to highlight OCR, keyboard shortcuts, auto-zooming, etc.

5. Award-winning OCR & compression

OCR in over 130 languages, convert to many document formats (PDF, PDF/A, XPS, TXT, RTF, DOC, OpenDocument text, HTML, XML, WordML, SpreadsheetML, TIFF single or multi-page, BMP, JPEG, JPEG2000, PDF image, etc.) and keep productivity and cost-efficiency under control thanks to IRIS' unique file PDF and PDF/A hyper-compression technology.

6. Customizable connectors & export

IRIS Powerscan™ 10 integrates perfectly with your document folders, email, printers, third-party applications (Alfresco, Documentum, Sage, SharePoint, Therefore, FileNet, WorkSite, Open Text, IRISNext™, EBP, SAP, MS Dynamics, Oracle Financials, and more) as well as multiple cloud services (Box, DropBox, GoogleDocs, Evernote and Therefore Online).
